

AUTOMOTIVE MRO WORKSHOP SYSTEM

LISTA WORKSPACE EQUIPMENT FOR MODERN AUTO WORKSHOPS

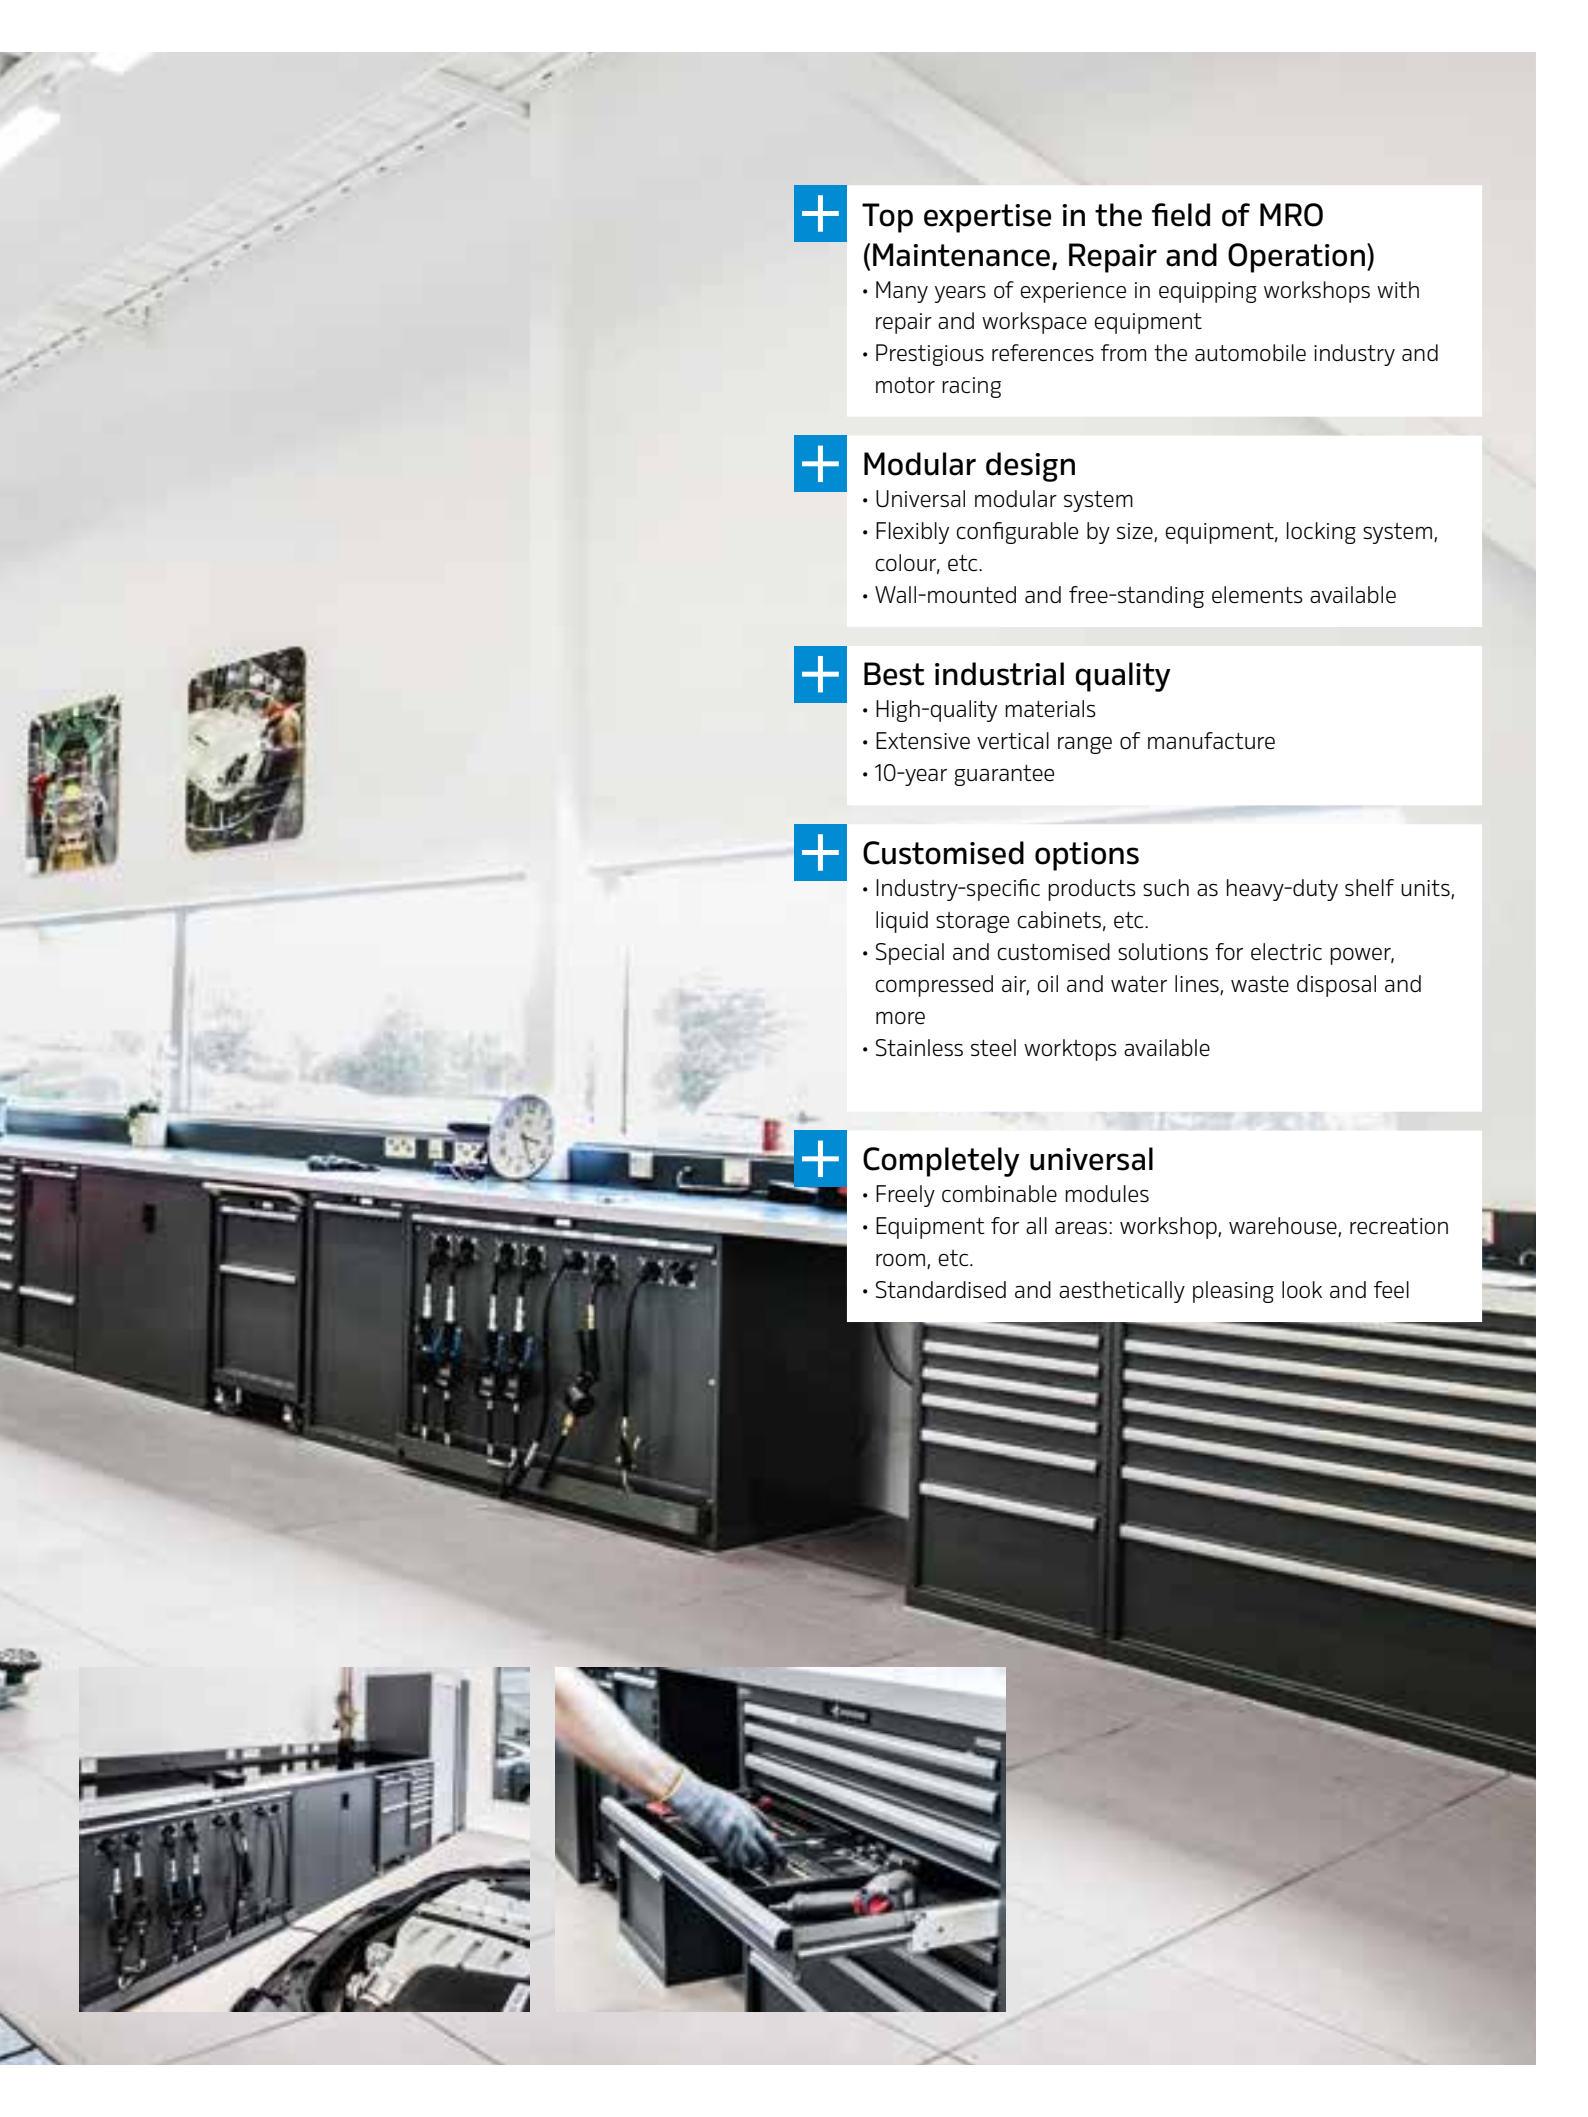

THE BRAND OF BRANDS

Workspace equipment from LISTA has been tried and tested thousands of times in the automotive industry and motor racing. All major brands rely on the high quality system that flexibly fulfils every customer requirement from single drawer cabinets to fully integrated work lines. The modular design and excellent quality ensure that LISTA applications are a perfect fit, as well as being durable and robust. Special requirements of the sector are implemented in detail. This enables you to benefit from a personalised, coherent solution that makes your workshop better organised, more efficient and even more visually appealing.

Put your faith in superior quality and durability – just as leading automotive brands world-wide do.

+ Top expertise in the field of MRO (Maintenance, Repair and Operation)

- Many years of experience in equipping workshops with repair and workspace equipment
- Prestigious references from the automobile industry and motor racing

+ Modular design

- Universal modular system
- Flexibly configurable by size, equipment, locking system, colour, etc.
- Wall-mounted and free-standing elements available

+ Best industrial quality

- High-quality materials
- Extensive vertical range of manufacture
- 10-year guarantee

+ Customised options

- Industry-specific products such as heavy-duty shelf units, liquid storage cabinets, etc.
- Special and customised solutions for electric power, compressed air, oil and water lines, waste disposal and more
- Stainless steel worktops available

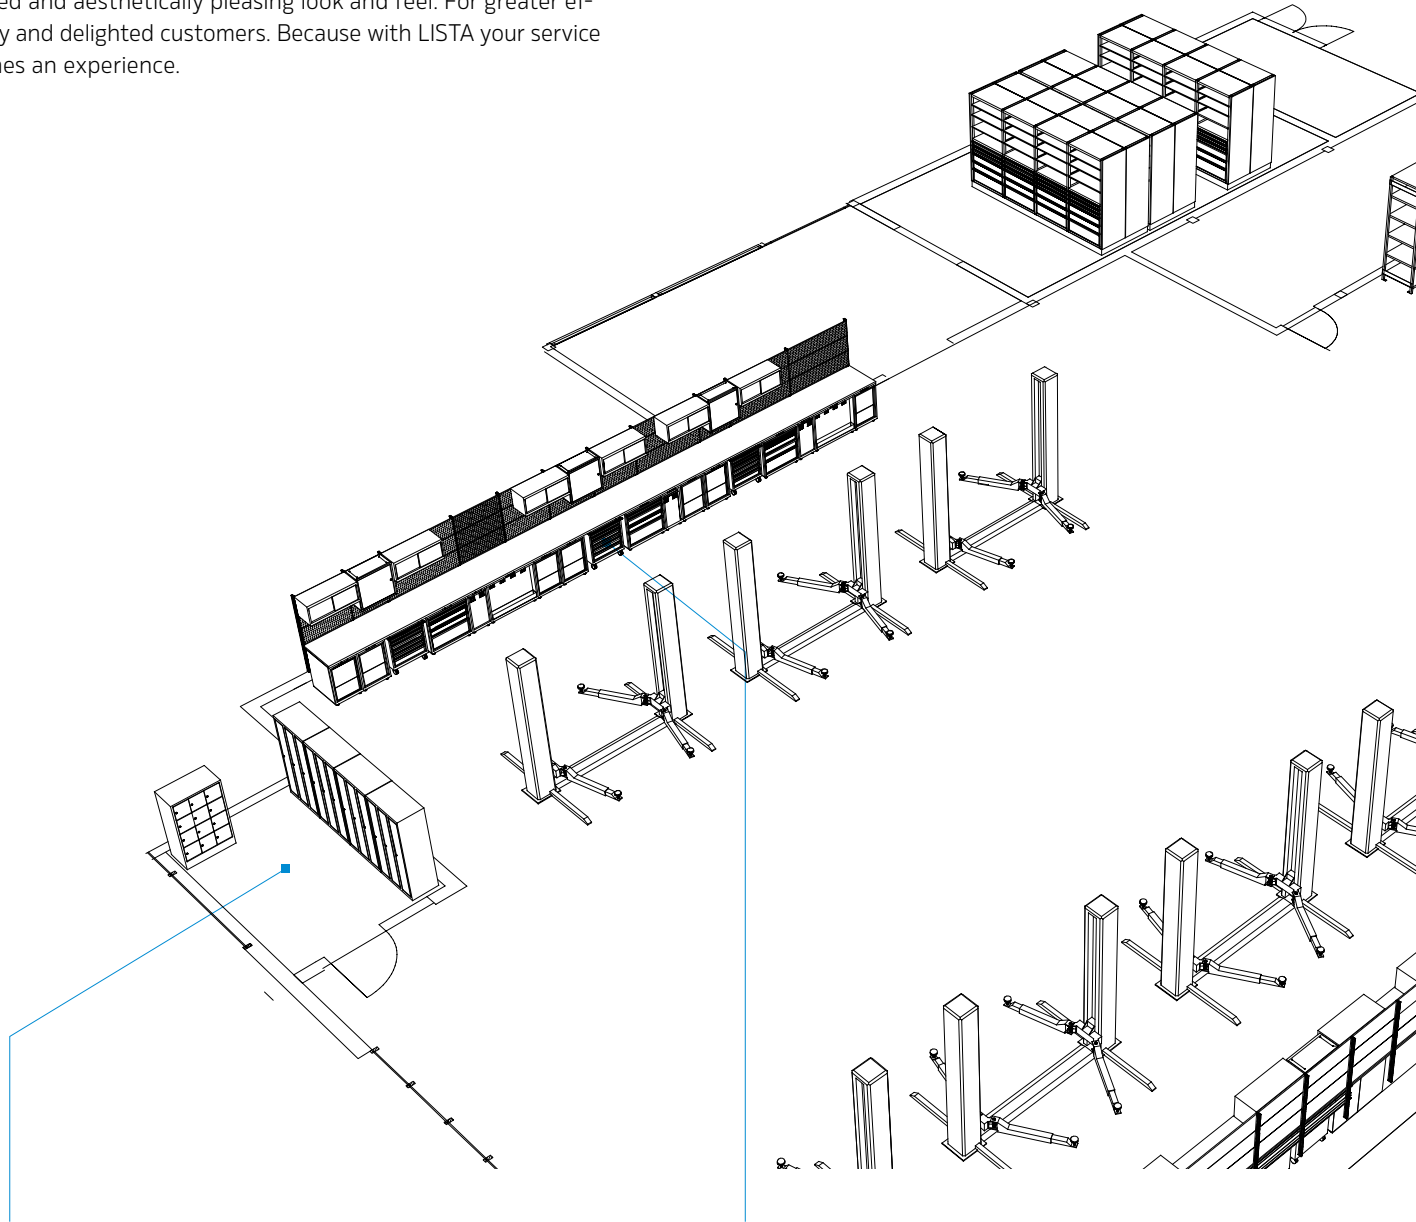

+ Completely universal

- Freely combinable modules
- Equipment for all areas: workshop, warehouse, recreation room, etc.
- Standardised and aesthetically pleasing look and feel

UNIFORM AND APPEALING THE LISTA SYSTEM

The LISTA system provides you with complete workspace and storage solutions – from workshop to office. The vast number of add-ons, equipment options, and configurations means that you can always create the solution that is right for you. With a standardised and aesthetically pleasing look and feel. For greater efficiency and delighted customers. Because with LISTA your service becomes an experience.

Free choice of colours

From classic grey to a sophisticated corporate design, your LISTA workspace equipment is available in any colour you wish. And you can also order housings and drawers in different colours.

ERGONOMIC AND EFFICIENT INDUSTRY-SPECIFIC MODULES, SUPERSTRUCTURES AND ACCESSORIES

LISTA knows what is important in the automotive industry. That's why LISTA offers a wide range of purpose-specific modules, superstructures and accessories to equip your workshop to the highest standards. Industry-specific details and special solutions for compressed air and other typical MRO applications provide top ergonomics and thereby enhance your efficiency and productivity.

LISTA BENEFITS AT A GLANCE:

- + Comprehensive range and many different services
- + Countless configurations – one system
- + 18 standard colour combinations – unlimited choice of colours
- + Customised and competent project planning
- + Quality and security – an investment
- + 10-year guarantee and after-sales service
- + Worldwide distribution and service network
- + First-class references from reputable companies worldwide

Individual locking system

From standard locking systems with replaceable cylinders to fully electronic access control systems, you can choose from five intelligent levels of LISTA security systems. The latest generation includes an RFID lock.

Free-standing modules

Free-standing modules help you to exploit available space to the full even with no supporting walls.

Waste disposal

Customised cabinets and containers are available for the disposal of typical waste materials and scrap.

LISTA –
your partner for more than 70 years

**PREMIUM GERMAN QUALITY,
SWISS PRECISION**

Cabinets
With LISTA you can configure the equipment that is right for you from a wide range of standard units. As well as preconfigured cabinets, individually configured and special solutions are possible.

Accessories
Numerous accessories such as perforated panels, containers, vices and more, ensure an ideal supply and storage of materials.

Stainless steel worktops
Worktops in stainless steel meet the most stringent requirements in terms of hygiene, robustness and durability.

Partition material
The extensive range of partition material for LISTA drawers – slotted partitions, metal dividers, troughs, foam inserts and more – provide secure and neat storage of all parts and tools.

Finest steel base
Elevated feet keep the floor clear and make it easy to clean. Special stainless steel covers reliably protect them against dirt and corrosion.

Electric power, compressed air, oil and water
Special and customised solutions for the supply of electric power, compressed air, water and other liquids perfectly and flexibly fulfil the requirements typical of this sector.

EQUIPMENT AND ACCESSORIES

Workbench tops

Workbench tops made of multiplex

Versatile – dirt-repellent and largely impervious to oil and grease

Multiplex top with sheet steel coating

Meets high standards – resistant, very easy to clean and versatile

Workbench tops made of nitrile

Versatile – slip-resistant and shock-absorbent, as well as oil and fuel-resistant

Locking systems

Key Lock

Standard lock – also as master key system or simultaneously lockable

Code Lock

Direct keyless access via a 4-6 digit code with up to 100 different user codes

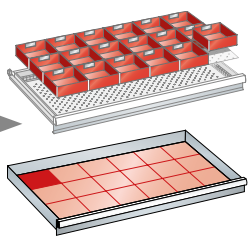

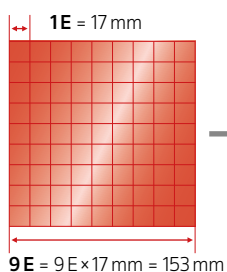

RFID Lock

Functions like Code Lock – use via RFID batch, RFID card or with a code

THE CLEVER MEASUREMENTS SYSTEM

LISTA Units (E)

Using a practical grid system, the LISTA unit (E) ensures that housings, drawers and partition materials always fit neatly together. A LISTA unit (E) is 17 mm and is based on the grid system for partitioning drawers. Drawer cabinet housings and the drawers that fit into this housing are based on the same LISTA units, even though they have different dimensions.

Example:

Cabinet floor area
1023 × 572 mm:

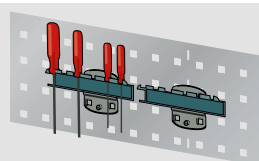

6 × 9E = 54 E (width)
3 × 9E = 27 E (depth)
